

**TWDB Drinking Water State Revolving Fund
Water Distribution System Improvements
Contract A & Contract B
City of Bonham, Texas
Project ID: 61022 - City of Bonham, Texas**

These two projects were part of the larger \$7.3 million dollar project funded by TWDB CWSRF for a water facilities improvements project. **Hayter Engineering provided all of the surveying for the water line replacements in both Contract A and Contract B.**

Contract A improvements included installation and testing of approximately 14,586 LF of 6" through 16" water main, 141 LF of 1" to 4", and 1,010 LF of 7" gravity sewer lines.

Contract A was completed in 2008.

Contract B improvements included installation of approximately 167 LF 12" water main, 2,157 LF 10" water main, 1,670 LF 8" water main, 67 LF 4" C-900 DR 18 PVC water main, 20 fire hydrants, line tie-ins, D.I. fittings, 256 service transfers, DeRose elevated storage tank fill valve replacement and site work.

Contract B was completed in 2010.

Service provided by Hayter Engineering are listed at right.
