

**Texas Parks & Wildlife Department**  
**"Trail De Paris" SE 8th Street to SE 12th Street**  
**Paris, TX**  
**Project ID: #RT0819**

Hayter Engineering assisted the City of Paris in obtaining grant funds for this project from the Texas Parks & Wildlife Department for the Trail de Paris from 12th Street to 8th Street.

Construction included: 2,274 SY subgrade installation; 2,274 SY crushed aggregate base; 1,706 SY asphalt wearing surface; and a railroad flat car was structurally modified on both ends and installed as a trail bridge. This bridge work included abutments & wingwalls, placement and anchoring, non-slip deck coating, and painting; trail and bridge site grading; fencing; and hydro mulch on disturbed areas.

Services provided by Hayter Engineering are listed at right.

This project was completed in 2011.
