

# Texas Water Development Board - Drinking Water State Revolving Fund, Water Improvements - Phases I, II & III - Paris, Texas

Project ID: 62525

Hayter Engineering assisted the City of Paris to apply for financial assistance from the Texas Water Development Board for water and wastewater distribution system improvements through their State Revolving Fund Loan Program. This application included a Preliminary Engineering Feasibility Report, design and construction phase services.

In September of 2012, the TWDB approved by resolution the amount of \$3,400,778 to the City of Paris (Lamar County) consisting of a loan in the amount of \$2,900,000 and \$500,778 in loan forgiveness, for eligible green project reserve, from the Drinking Water State Revolving Fund to finance water system improvements.

Improvements included: 10,988 LF replacement of cast iron water lines (2" to 20" lines that range from 44 to over 100 years old) with 20", 24", 8" and 6" water lines; 775 LF of 6" and 8" sewer lines; 4 new manholes, fire hydrant assemblies, valves, fittings, street repairs and all necessary appurtenances. Phase I of this project was complete in April 2014.

Phase II consists of 9 water lines for approximately 1,073 LF of 14" C-905 PVC waterlines, 4,268 LF of 8" C-900 waterlines, 2,994 LF of 6" waterlines, valves, and street repairs. Phase II was completed October 2014.

Phase III utilized remaining funds for 3,758 LF of 6" C-900 DR 18 PVC water line, asphalt repair, concrete drive repair, grave drive repair, 806 LF of 4' concrete sidewalk, and 6 fire hydrant assemblies. Phase III was completed in March 2016.

Service provided by Hayter Engineering are listed at right.
