

**Texas Department of Transportation Federal
Project #STP 1502 (070) ROW
State Highway 11 Waterline Relocation
Gafford Chapel WSC, Sulphur Springs, TX
Project ID: CSJ #0083-02-052**

With the widening of State Highway 11 from the Hunt/Hopkins County line east to the City of Sulphur Springs about 3 miles this project abandoned the existing water line and installed approximately 9,225 linear feet of new 1" to 8" PVC waterlines. Hayter Engineering assisted Gafford Chapel WSC to coordinate with TxDOT for easements on private property and easements on TxDOT right-of-way. Approximately 80% of the cost of the water line relocation was reimbursed to Gafford Chapel WSC by TxDOT.

Services provided by Hayter Engineering are listed at right.

This project was completed within budget and on schedule in 2016.
