

**Texas Water Development Board
Clean Water State Revolving Fund
Sewer Collection and Treatment System
Rehabilitation - City of Commerce, Texas
Project ID: 72140**

This project was part of a Texas Water Development Board Clean Water State Revolving Fund \$2 million low interest loan for wastewater system rehabilitation.

Improvements included installation of 3,735 LF of 6" through 10" PVC, 883 LF of bore for 6" through 10" PVC, 3,897 LF of 6" through 12" HDPE pipes installed by pipe bursting, transfer of existing services, 35 manholes, and asphalt paving; also, rehabilitation of wastewater treatment plant's flow-paced chlorine and SO₂ system and replacement of two self-priming pumps with associated piping and electrical in the in-plant pump station.

This project was completed in 2010.

Remaining funds for additional line work was completed in 2013.

Services provided by Hayter Engineering are listed at right.
