

Taco Bell, Petco Plaza - Paris, Texas

Hayter Engineering coordinated work on this project with Southern Multifoods, Inc.; Republic Title of Texas; Johnson & Pace, Inc., Engineers and Architects; and the City of Paris for a new Taco Bell restaurant in Paris, Texas.

Services provided by Hayter Engineering are listed to the right.

This project included a detention pond design in front of the restaurant (seen in photo above) that prevents over flows by diverting storm water to the back of the shopping plaza to another detention pond.

This project was completed in 2009.
