

## Liberty National Bank Collegiate Drive Branch Expansion Paris, TX

Hayter Engineering coordinated with Liberty National Bank, Denny Architects, Richard Drake Construction, and the City of Paris for a Liberty National Bank branch bank expansion at their Collegiate Drive location in Paris, Texas.

The expansion included doubling the existing building's square footage, additional drive-through banking lanes, parking and drive aisles, and a new entrance on Price Street.

A unique aspect of this project was that the bank was to remain open during construction. As a result, a phased approach was developed to ensure customers had continual access to the bank during construction.

Services provided by Hayter Engineering are listed to the right.

This project was completed in 2018.

### CLIENT

Liberty National Bank

### CONTACTS

Carl T. Cecil, President

Telephone: (903) 785-7651
